

Add Article to Category Extension for MediaWiki

Contributed by Liang Chen

Add Article to Category

This is a extension for MediaWiki. It is able to add an inputbox(for create new article) to each category page.

Above: Screenshot of this extension from I don't Like Exams wiki. A inputbox in the GRE category page.

^

^ Install:

1. Download the extension at [HERE](#)
2. Upload the `articlecategory.php` to your `extensions/` directory
3. Add `include("extensions/articlecategory.php");` to your `LocalSettings.php` file.
4. Done ^ Demo:

You can test it at: <http://kaoshi.wobuxihuan.org/Category:GRE> ^

For further information, you can visit the [Extension:Add Article to Category](#) at MediaWiki official site .
